MANUFACTURERS

OF

THE AKRON ECLIPSE LEVELS

THE STANDARD ECLIPSE LEVELS

All glasses in Akron Eclipse Levels are carried on elastic bearings and enclosed in a heavy glass tube specially made for us, and when placed in the wood is almost unbreakable.

All our 3-ply Levels are made up as above with center laminated in 3 to 6 pieces.

More of the improvements in Spirit Levels in the last ten years are due to the manufacturers of Akron Levels than to any other cause.

The Akron Levels have established a standard of accuracy, and comparisons are made with them. They have compelled other makers to aim to secure the visibility of glasses in all positions in which the tool can be applied, which is attained completely only in these.

AKRON ECLIPSE LEVELS.

Akron Levels endure the falls and jars incident to daily use without injury, which is not true of any other kind. They have a clear, distinct Eclipse band to divide the bulb, and it is easily seen even at a considerable distance.

Akron Levels introduced the idea of using two plumbs, so that the stock can be applied either end up.

The adjustment of leveling glasses is obtained by moving the glass to the right or left until correct, then when correct tightening the screws down. In the plumb glasses the adjustment is obtained by tightening one of the screws at the top, not loosening either.

New glasses are supplied mounted ready to screw in place.

Akron Levels are a necessity to all dealers who are alive to the advantage of having the best.

AKRON ECLIPSE LEVELS
ADJUSTABLE

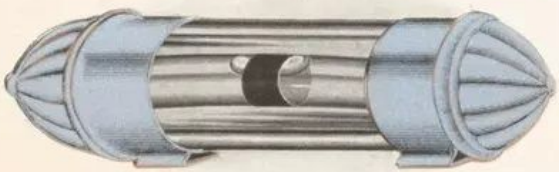
Per dozen, $8.00.



No. 16

Pocket Level.
One in a box.
Half dozen in a carton.
Per dozen, $5.50.

Of our Standard Eclipse line little need be said except that they are the best of their class, and better finished than other makes of corresponding grades.

STANDARD ECLIPSE LEVELS

They will fully meet the needs of such dealers as prefer the old styles with which they have been long familiar. They are easily adjustable but will seldom need it, as like all our settings they are screwed down tight without springs or loose parts, and jars do not displace them.

They will give perfect satisfaction to such as prefer them.

STANDARD ECLIPSE LEVELS
ADJUSTABLE
